| LEADERSHIP<br>& SERVICE | Convener of QCD and Hadronic Physics track, EPS-HEP Conference, France                        | 2025           |
|                         | ▷ Conference abstract reviewer, co-organizer of agenda, and chair for parallel talk sessions  |                |
|                         | Convener for LHC Physics Centre at CERN (LPCC) Forward Physics Group                          | 2023 – present |
|                         | ▷ ATLAS contact, co-organizer and convener for March, July and December 2024 workshops        |                |
|                         | Cambridge ATLAS Inner Tracker (ITk) strips upgrade module production                          | 2021 – 2024    |
|                         | ▷ Qualified cleanroom site for module production, mechanical and electrical quality control   |                |
|                         | ▷ Led assembly and quality control of 60+ ITk strips modules to prove production readiness    |                |
|                         | ▷ Module thermal cycling: pioneered electromechanical stress analysis and interposer solution |                |
|                         | Convener of ATLAS Standard Model Soft QCD physics group                                       | 2022 – 2024    |
|                         | ▷ Coordination role organizing program of 20 analyses probing non-perturbative dynamics       |                |
|                         | ▷ Chaired bi-weekly plenary meetings, steered physics group strategy and workshop agendas     |                |
|                         | Convener for Run 4 AFP Task Force on HL-LHC physics projections                               | 2021 – 2022    |
|                         | ▷ Coordination role organizing physics and performance for ATLAS Forward Proton upgrade       |                |
|                         | ▷ Chaired meetings discussing beam optics, detector performance and physics opportunities     |                |
|                         | ATLAS Forward Proton combined performance and data preparation                                | 2019 – 2020    |
|                         | ▷ Led scrutiny of AFP data quality, detector efficiency, energy scale calibration, simulation |                |
|                         | ▷ Delivered first collaboration-wide AFP performance recommendations for 2017 dataset         |                |
|                         | Editorial Board member for ATLAS SM Soft QCD analysis                                         | 2025           |
|                         | Graduate open house talk, NYU Department of Physics                                           | 2025           |
|                         | Invited member-at-large for subgroup convenors, ATLAS Standard Model                          | 2024           |
|                         | Grant expert reviewer for National Science Centre, Poland                                     | 2023           |
